

UTMA Deduct Meter Information

A deduct meter enables customers to realize a savings for water that does not enter the sanitary sewage system (swimming pools, sprinkler system, watering garden, etc.) Any water going through this meter will then be deducted from your sewage bill.

Customer assumes all responsibility with purchasing and permanently installing deduct meter. Once the meter is installed call UTMA to have the meter inspected and sealed. NO CREDIT will be issued until the meter is inspected and sealed by UTMA Personnel.

LMA Customers Only – For all new construction and any replacements must be purchased through LB Water (814)471-1980, ask for Leonard.

Frequently Asked Questions

Where can I purchase a deduct meter?

Deduct Meters can be purchased at a Commercial Plumbing Supply Company.

LMA Customers – please see information above.

Where must I locate my deduct meter?

Your deduct meter must be located after your water meter and measure only the water used for outside purposes. This meter must be permanently installed.

What do I do after my meter is installed?

You must contact UTMA (724) 423-6888 to schedule an inspection. NO CREDIT will be issued until the meter is inspected and sealed by UTMA Personnel.
